

WTC FAQ - ARMY & CODEX

CHAOS DEMONS

1. A daemonic save cannot be affected by powers or abilities that affect the save characteristic (like is the case with the Jinx Psychic Power) unless the power or ability specifically mentions a daemonic save.
2. When a given rule or ability does not allow for a saving throw to be made, like the Genestealer Cult's Vockor's Talisman Relic, this does not apply to daemonic saves unless daemonic saves are explicitly stated as being ignored.
3. For the purpose of unlocking Allegiance-locked stratagems, the Glossary is incorrect and stratagems are unlocked on the unit level, not on the Detachment level.
4. A soulgrinder must be played on a 160mm round base at the WTC.
5. When Belakor is added to an army other than his AOR, only Belakor gains access to the Noctic Discipline.
