

WTC FAQ - ARMY & CODEX

GENESTEALER CULTS

VERSION 1.3 - LAST UPDATE: 27 APR 2024

1. When Unquestioning Loyalty comes into play, note that you can target the bodyguard unit that character is in, but that you cannot use any Feel no Pain rule from the attached character.
2. Cult ambush markers that cannot spawn a unit, but aren't removed, will remain in place.
3. New units added to your army using the Cult Ambush army rule, are "Set up" on the table but do not trigger rules that refer to "repositioned units" and never count as being a reinforcement unit and as such are not effected by abilities like Omni-Scramblers.
4. If you have added Kasrkin units to your army using the Brood Brothers rules they may select an order due to their Warrior Elite ability from the Voice of Command army rule to effect them despite not having the Astra Militarum Faction Keyword. This does not allow Officers to issue Orders because your faction keyword is not Astra Militarum.
