

WTC FAQ - ARMY & CODEX

VOTANN

VERSION 1.3 - LAST UPDATE: 27 APR 2024

1. When selecting targets for the Ruthless Efficiency Detachment Rule you may target both units in Transports, and Attached units. Additionally you may not select a unit that make up part of an attached unit, you have to select the attached unit to be the recipient of the Judgement Tokens. To gain the CP from the Detachment Rule if you've targeted an attached unit all the units that make it up need to have been destroyed.
2. A Judgement Token is applied to an enemy unit that has destroyed one of your units as soon as the last model in that unit is removed from the table.
