NECRONS

VERSION 1.3 - LAST UPDATE: 27 APR 2024

1. To use Protocol of the Undying Legions the bodyguard unit has to be on the battlefield. When this stratagem is used all applicable reanimation bonuses are also applied. For instance a unit of Necron Warriors is 3" of a Canoptek Reanimator and has an attached character. When this stratagem is used on that unit it will reanimate $2D3 + 1$ wounds.
2. When using the Monoliths Eternity Gate ability if you target a unit that is currently on the table it is repositioned that turn (even turn 1) following the rest of that abilities rules.
3. If there aren't any No Mans Land or Enemy Deployment Zone objectives, the Power Matrix will have no effect in these areas.
